E. SESSION SUMMARY:

The target is a large structure, possibly a warehouse or storage facility. The target area has mountains in the background and possibly an inactive volcano.

There are many people at the target and much activity. There is a pile or a mound of something. People seem to be piling more things onto this pile. Other people are moving things around and working. There are at least 4 people standing over a certain box. The box is dark in color, hard, solid, rectangular in shape and possibly made of some kind of metal. The box itself looks like a crate, but it could also be a trunk. There is something inside this box that people seem to want.

Inside the box there is some white, granular stuff that is in clear packets. There are at least two of these packets inside of the box. This stuff really hurts my nose and makes me want to sneeze (usually this is a sign of drugs to me). Also, it seems to be important to move this particular box to where it has to go. It is possible that there are two boxes because the people are interested in "connecting something" or "making something connect".

There is important activity going on at the target area. There is much movement and a sense of urgency. The people working are loading, unloading and storing. Therefore, it is most likely a storage facility or warehouse with possible drug connections. The movement of these boxes seem to be the most important thing, and getting them to where they have to go.

There are many people at the target.

There are at least four ~~of~~ people standing over a certain box. The box is rectangular in shape and made of some kind of metal. However, it ^{reminds me} ~~looks like~~ a crate, it could also be a trunk. It is dark in color and solid. There is something inside this box that people seem to want.

There is also a pile ~~or~~ or a mound of something. Things seem to be all piled up, ~~being~~ ~~is~~ ~~this~~ ~~part~~ Inside is some stuff that hurts my nose to breathe it. It makes me want to sneeze. (Usually this is a sign to ~~me~~ me of drugs) There seems to be some white stuff that is in packets. There are at least 2 packets. The white stuff is granular, in a clear package and it really makes me want to sneeze.

(Target area has mountains in the background and possibly an inactive volcano)

There is an important activity going on. There is much movement and a sense of urgency. There are men working, some of them are piling things up into a pile, or a mound. It seems to be important to move this particular box (or boxes) to where it has to go.

22

All the activity makes me dizzy.

There is much loading, unloading
and storing.

This is ^{probably} ~~possibly~~ a storage facility
or warehouse with possible drugs (cocaine).

Movement of "boxes" is
most important.

Bringing them to where they have to go.

MEMO FOR: CH, ODT-S

SUBJECT: PROJECT 92-4 (U)

1. (S/NF) The target appears to be a structure allied with the concepts of storage and manufacturing. The target building is located in an isolated area. Soil excavation and movement also appears associated with the target. Two sources associated the target with the odors and tastes normally associated with that of toxic materials.
2. (U) The isolation of the site implies a sense of illegality and secrecy.
